PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong foundation in programming fundamentals, object-oriented programming, data structures and algorithms, and database management systems including MySQL and MongoDB. Passionate about artificial intelligence, software development, and building automation solutions that use AI to improve productivity and solve real-world problems. Eager to build an excellent career in development and AI-powered automation by learning from industry professionals, contributing to practical projects, and continuously improving technical skills.

TECHNICAL SKILLS

Programming: C++, JavaScript

Core Concepts: Object-Oriented Programming, Data Structures and Algorithms, Database Management Systems

Databases: MySQL, MongoDB

AI & Automation: AI-assisted development, automation concepts, prompt engineering fundamentals

Tools: Visual Studio Code, MySQL Workbench, Git, GitHub

ACADEMIC PROJECTS

Hospital Management System | C++

- Built a console-based system using object-oriented programming concepts to manage patients, doctors, and appointments.
- Applied structured programming practices to organize records and improve system usability.

Chatting Box Application | C++ / OOP

- Developed a basic chat system using core programming and object-oriented principles.
- Implemented user interaction and message-handling logic to strengthen practical programming skills.

Online Food Ordering System | MySQL

- Designed a relational database system with normalized tables for food ordering workflows.
- Implemented SQL queries for order management and CRUD operations.

EDUCATION

Bachelor of Computer Science **Oct 2023 - Present**

Iqra University, H-9 Campus, Islamabad

SOFT SKILLS

Problem Solving | Teamwork | Communication | Quick Learner | Adaptability

ADDITIONAL INFORMATION

Languages: English, Urdu

Availability: Open to work
